WORK EXPERIENCE

FULL STACK WEB DEVELOPER

Jun 2023 - Present

OASIS LIVESTOCK LLC – ABU DHABI, UAE

- Developed and maintained full-stack web applications using Laravel, Livewire, PHP, JavaScript, and MySQL, ensuring scalability and performance optimization.
- Designed and implemented responsive admin dashboards and management systems using Blade, Bootstrap, HTML5, and CSS3, enhancing user experience and accessibility.
- Built and integrated RESTful APIs for mobile applications and third-party services, ensuring seamless communication between platforms.
- Implemented real-time features such as chat, notifications, and live data updates using WebSockets, improving user interaction and system responsiveness.
- Integrated external services including Google Maps API, payment gateways, and third-party APIs, expanding functionality and streamlining business operations.
- Managed Git version control and deployed applications on Linux-based servers, ensuring smooth versioning, deployment, and ongoing maintenance.

FULL STACK PHP DEVELOPER

Jun 2021 - Jun 2023

FUJTOWN, FUJAIRAH

- Lead the development of product-based web applications, focusing on both front-end and back-end integration.
- Played a key role in designing and implementing server-side architecture to ensure smooth functionality.
- Managed and maintained CPanel hosting services, ensuring seamless server operations.
- Collaborated closely with teams to produce comprehensive project documentation and ensure project milestones were met.
- Conducted thorough debugging and troubleshooting to resolve issues and enhance system performance.

WEB DEVELOPER

Feb 2020 - Jan 2021

GARGISH, ABU DHABI

- Developed and integrated REST APIs to support mobile applications on both iOS and Android platforms.
- Designed, developed, and deployed eCommerce websites, including the creation of robust admin panels and backend systems.
- Handled end-to-end management of CPanel hosting services to ensure smooth website functionality and uptime.

CORE COMPETENCIES

- Full Stack Web Development
- PHP Development (Core PHP, Laravel, CodeIgniter)
- RESTful API Development & Integration
- Frontend Development (HTML5, CSS3, JavaScript)
- JavaScript Frameworks (React.js, Vue.js, jQuery)
- Laravel Livewire Development
- MySQL Database Design & Optimization
- Responsive Web Design (Bootstrap)
- Third-party API Integration
- Google Maps API Integration
- MVC Architecture
- Authentication & Web Security
- Debugging & Performance Optimization
- Git Version Control

PERSONAL DETAILS

Nationality : Indian
Gender : Male
Hobbies : Music, Travelling

- Collaborated with cross-functional teams to ensure seamless backend integration with front-end interfaces.
- Provided ongoing support and maintenance for web applications, ensuring their performance and security.

PHP WEB DEVELOPER MICROCLOUDS INDIA, KERALA

Oct 2017 - Dec 2019

- Developed and maintained web applications for a Software-as-a-Service (SAAS) platform, ensuring scalability and efficiency.
- Designed and implemented REST APIs to integrate with Android and iOS applications, improving mobile app functionality.
- Utilized PHP frameworks including CodeIgniter, Laravel, and Vue.js to streamline development and enhance user experience.
- Created responsive and interactive front-end interfaces using Bootstrap, ensuring compatibility across devices.
- Collaborated with team members to architect and optimize the backend systems, ensuring seamless integration with external services.

EDUCATION

BACHELOR OF COMPUTER APPLICATIONS | 2014 - 2017
Calicut University, Kerala, India

PROJECTS

- **Zabehaty**
It is a mobile app that allows you to conveniently order fresh meat and have it delivered straight to your doorstep.
- **Halal Mazrana**
It is the first Emirati app that offers fresh carcasses and meat delivery across all Emirates, along with veterinary and support services for local livestock keepers, contributing to the development of the livestock sector and enhancing food security.
- **Thahabi**
It is a groundbreaking app in the Gulf region that offers a wide variety of jewellery from local stores with guaranteed quality, competitive pricing, and professional service, including home delivery or delivery to any preferred location.
- **Fujtown**
It is the first online business directory platform for Fujairah city and the East Coast Region, allowing companies of all sizes to create profiles to attract more customers and enhance their market credibility.
